

Revision: August 1, 2019

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

· Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

• **1.2 Relevant identified uses of the substance or mixture and uses advised against** No further relevant information available.

· Application of the substance / the mixture Lubricant

 1.3 Details of the supplier of the Safety Data Sheet
 Manufacturer/Supplier: Synco Chemical Corporation
 24 DaVinci Dr., P.O. Box 405
 Bohemia, NY 11716
 Telephone: 631-567-5300
 Email: info@super-lube.com
 Further information obtainable from: Product Safety Department

• **1.4 Emergency telephone number:** CHEMTREC 1-800-424-9300 (US/Canada) +01 703-527-3887 (International)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture Classification according to Regulation (EU) No 2015/830

GHS02 flame

Flam. Aerosol 1 H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated.

GHS08	health hazar	d
Repr. 2 STOT RE 2	H361f H373	Suspected of damaging fertility. May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.
GHS09	environment	Toxic to aquatic life with long lasting effects.
GHS07		
Skin Irrit. 2	H315	Causes skin irritation.
STOT SE 3	H336	May cause drowsiness or dizziness.
Asp. Tox. 1	H304	May be fatal if swallowed and enters airways. (Contd. on page 2)

Revision: August 1, 2019

Trade name: S	Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)
	(Contd. of page 1)
· Informatio	on concerning particular hazards for human and environment:
preparatio	Inct has to be labelled due to the calculation procedure of the "General Classification guideline for ns of the EU" in the latest valid version. Pressurised container.
· Classifica	ation system:
literature on The class	sification is in accordance with the latest editions of international substances lists, and is
	nted by information from technical literature and by information provided by the company. Il information: 0 percent of the mixture consists of component(s) of unknown toxicity
· 2.2 Label	alements
	according to Regulation (EC) No 1272/2008
-	
The produ	ct is classified and labelled according to the CLP regulation.
· Hazard pi	ictograms
GHS02 GH	HS07 GHS08 GHS09
· Signal wo	ord Danger
· Hazard-de	etermining components of labelling:
n-hexane	
[.] Hazard sta	atements
H222-H229 H315 H361f H336 H373 H411	 9 Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. Suspected of damaging fertility. May cause drowsiness or dizziness. May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative. Toxic to aquatic life with long lasting effects.

Precautionary statements
P210 Keep away from heat/sparks/open flames/hot surfaces No smoking.
P251 Pressurized container: Do not pierce or burn, even after use.
P260 Do not breathe mist/vapours/spray.
P281 Use personal protective equipment as required.
P202 Do not handle until all safety precautions have been read and understood.
P312 Call a POISON CENTER/doctor if you feel unwell.
P302+P352 IF ON SKIN: Wash with plenty of water.
P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
P501 Dispose of contents/container in accordance with local/regional/national/internationa
regulations.
· Additional information:
Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.
Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking.
· Hazard description:
· 2.3 Other hazards
· Results of PBT and vPvB assessment
· PBT: Not applicable.
· vPvB: Not applicable.
SECTION 3: Composition/information on ingredients

· 3.2 Mixtures · Description: Mixture of substances listed below with nonhazardous additions. · Dangerous components: CAS: 110-54-3 25-50% n-hexane EINECS: 203-777-6 Index number: 601-037-00-0 Flam. Liq. 2, H225 Repr. 2, H361f; STOT RE 2, H373; Asp. Tox. 1, H304 🚯 Aquatic Chronic 2, H411 🔆 Skin Irrit. 2, H315; STOT SE 3, H336 CAS: 74-98-6 25-50% propane EINECS: 200-827-9 Flam. Gas 1, H220 Press. Gas C, H280 Index number: 601-003-00-5 CAS: 106-97-8 butane 25-50% EINECS: 203-448-7 🚸 Flam. Gas 1, H220 Index number: 601-004-00-0 🔶 Press. Gas Ć, H280

carbon dioxide

Press. Gas L, H280

CAS: 124-38-9

EINECS: 204-696-9

Revision: August 1, 2019

Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

(Contd. of page 3)

• Additional information: For the wording of the listed risk phrases refer to section 16.

SECTION 4: First aid measures

 4.1 Description of first aid measures General information: Take affected persons out into the fresh air. Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. After inhalation: Supply fresh air; consult doctor in case of complaints. Provide oxygen treatment if affected person has difficulty breathing. In case of unconsciousness place patient stably in side position for transportation. After skin contact: Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor. In cases of frostbite, rinse with plenty of water. Do not remove clothing. After eye contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Unlikely route of exposure. Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. A person vomiting while laying on their back should be turned onto their side. 4.2 Most important symptoms and effects, both acute and delayed Headache Breathing difficulty Frostbite Dizziness Coughing Irritant to skin and mucous membranes. Slight intriant effect on eyes. Hazards

Revision: August 1, 2019

Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

(Contd. of page 4)

If necessary oxygen respiration treatment.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media · Suitable extinguishing agents: Alcohol resistant foam Carbon dioxide Fire-extinguishing powder Gaseous extinguishing agents · For safety reasons unsuitable extinguishing agents: Water 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. Danger of receptacles bursting because of high vapour pressure when heated. 5.3 Advice for firefighters · Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit. Additional information Eliminate all ignition sources if safe to do so. Cool endangered receptacles with water fog or haze. Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Use respiratory protective device against the effects of fumes/dust/aerosol.

Ensure adequate ventilation Wear protective equipment. Keep unprotected persons away. Keep away from ignition sources. Protect from heat.

6.2 Environmental precautions:

Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

· 6.3 Methods and material for containment and cleaning up:

Allow to evaporate.

Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Send for recovery or disposal in suitable receptacles.

Dispose contaminated material as waste according to item 13.

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

(Contd. on page 6)

(Contd. of page 5)

	ECTION 7: Handling and storage
OUKINDKP el E	.1 Precautions for safe handling Open and handle receptacle with care. Use only in well ventilated areas. Seep away from heat and direct sunlight. Information about fire - and explosion protection: Too not spray onto a naked flame or any incandescent material. Seep ignition sources away - Do not smoke. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i lectric lights. Do not pierce or burn, even after use. Emergency cooling must be available in case of nearby fire. Seep respiratory protective device available.
• S R S O A • In	.2 Conditions for safe storage, including any incompatibilities torage: Requirements to be met by storerooms and receptacles: store in a cool location. Observe official regulations on storing packagings with pressurised containers. void storage near extreme heat, ignition sources or open flame. Information about storage in one common storage facility: Store away from oxidising agents.
S P S	urther information about storage conditions: tore in a cool place. Heat will increase pressure and may lead to the receptacle bursting. rotect from heat and direct sunlight. torage Temperatures : <122 ° F / <50 °C. .3 Specific end use(s) No further relevant information available.
S	ECTION 8: Exposure controls/personal protection

Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

(Contd. of page 7)

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Safety glasses

· Body protection:

Not required under normal conditions of use. Protection may be required for spills.

- · Limitation and supervision of exposure into the environment Avoid release to the environment.
- · Risk management measures

See Section 7 for additional information.

No further relevant information available.

SECTION 9: Physical and chemical properties

· 9.1 Information on basic physical and chemical properties

General Information		
Appearance:		
Form:	Aerosol	
Colour:	Transparent	
· Odour:	Solvent-like	
Odour threshold:	Not determined.	
· pH-value:	Not determined.	
Change in condition		
Melting point/Melting range:	Not applicable, as aerosol.	
Boiling point/Boiling range:	Not applicable, as aerosol.	
Flash point:	-104 °C	
	Extremely flammable aerosol.	
· Flammability (solid, gaseous):	Not applicable.	
Auto/Self-ignition temperature:	Not determined.	
5 ••• ••• ••		(Contd. on page 9)

Revision: August 1, 2019

Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

	(Contd. of page 8)
· Decomposition temperature:	Not determined.
· Self-igniting:	Product is not self-igniting.
Danger of explosion:	In use, may form flammable/explosive vapour-air mixture.
· Explosion limits: Lower: Upper:	Not determined. Not determined.
Vapour pressure at 20 °C:	5,0-5,5 bar
 Density: Relative density Vapour density Evaporation rate 	Not determined. Not determined. Not determined. Not applicable.
Solubility in / Miscibility with water:	Not miscible or difficult to mix.
Partition coefficient (n-octanol/water	r): Not determined.
Viscosity: Dynamic: Kinematic:	Not determined. Not determined.
 Solvent content: VOC (California) 9.2 Other information 	Exempt No further relevant information available.

SECTION 10: Stability and reactivity

· 10.1 Reactivity	
10.2 Chemical stability	
Thermal decomposition / conditions to be avoided:	
Keep away from heat/sparks/open flames/hot surfaces No smoking.	
10.3 Possibility of hazardous reactions	
Extremely flammable aerosol.	
Can react violently with oxygen rich (oxidising) material. Danger of Explosion.	
Develops readily flammable gases/fumes.	
Danger of receptacles bursting because of high vapour pressure when heated.	
Reacts with peroxides and other radical forming substances.	
Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.	
10.4 Conditions to avoid	
Keep ignition sources away - Do not smoke.	
Store away from oxidising agents.	
• 10.5 Incompatible materials: Oxidizing agents	
• 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide	

(Contd. on page 10)

Revision: August 1, 2019

Trade name: Super Lube® Dri-Film Lubricant with Syncolon® (PTFE) (aerosol)

(Contd. of page 9)

SECTION 11: Toxicological information

· 11.1 Information on toxicological effects

- Acute toxicity:
- · LD/LC50 values relevant for classification: None.
- · Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- · on the eye: Slight irritant effect on eyes.
- Sensitisation: No sensitising effects known.
- · Subacute to chronic toxicity:
- May be fatal if swallowed and enters airways.

Suspected of damaging fertility or the unborn child.

May cause damage to the nervous system through prolonged or repeated exposure. Route of exposure: Inhalative.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.

Toxic and/or corrosive effects may be delayed up to 24 hours.

- Acute effects (acute toxicity, irritation and corrosivity): Vapours have narcotic effect.
- Repeated dose toxicity: May cause damage to organs through prolonged or repeated exposure.
- CMR effects (carcinogenity, mutagenicity and toxicity for reproduction):

Repr. 2

SECTION 12: Ecological information

- · 12.1 Toxicity
- Aquatic toxicity: Toxic for aquatic organisms
- 12.2 Persistence and degradability The organic portion of the product is biodegradable.
- 12.3 Bioaccumulative potential Does not accumulate in organisms.
- 12.4 Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Toxic for fish
- · Additional ecological information:
- · General notes:

This statement was deduced from the properties of the single components.

Do not allow product to reach ground water, water course or sewage system.

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

· 12.5 Results of PBT and vPvB assessment

- · PBT: Not applicable.
- · vPvB: Not applicable.

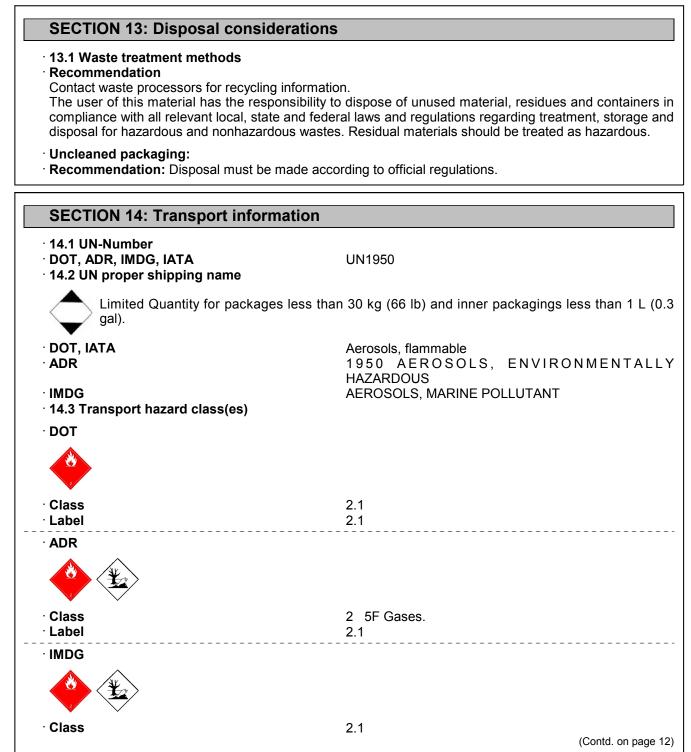

12.6 Other adverse effects No further relevant information available.
